Humane Solution Questionnaire

The Living with Wildlife program at the MSPCA offers advice and solutions that will help homeowners solve conflicts with wildlife in a humane, long-term, and cost-effective manner. Sometimes, however, homeowners choose to go to an outside individual or a private company for assistance. In these circumstances, we would like to be able to suggest individuals or private companies that will solve wildlife conflicts in a long-term and humane manner. Please provide answers to the following questions, to assist us in determining if, in these cases, we can recommend that you or your company be contacted. **Please note that all of the information you include will be posted on our website.**

CONFRONTING WILDLIFE CONFLICTS
Please describe how you/your company would examine a wildlife conflict. Please include a detailed example in your response. *

I always confront a humane and ethical treatment of wildlife to human conflict and educate the business or homeowner on why the animal is present and after i fully inspect the issue i implement a humane resolution 1st. For example- When i do raccoon and kits in chimneys, attics or wall voids i always scare the mother away so i can safely remove the kits and leave them in a safe container outside for the mother to retrieve after i screen or block her entry point.

Do you/your company always clearly indicate whether anything you do could harm a conflict animal, and other animals that may be present? *

☐ Yes
☐ No
☐ Other: _________________________________________________________________

How do you present a homeowner with information on disease and dangerous animals? Please include a detailed example in your response. *

I always educate homeowners on rabies, roundworm, distemper, mites ect. And provide the proper remedies or give advise on proper cleaning and disinfectant of affected areas.
