

# HEARTplay @ Home Pet Loss Workshops

HEARTplay is a heart-centered bereavement program which offers support services for children, teens and young adults of all abilities who are coping with a life-limiting illness or death in their lives. Licensed mental health counselors and expressive therapists use movement, music, art, play, and discussion to help participants explore and express feelings associated with grief and loss. We strive to offer programs and services that are trauma-informed and responsive to the needs of families in our communities.
